

Custom 2D321 Technical Reference

Doc Revision: A

Custom 2D32 Rev 1 is a custom version of GP-1005B LVD unit.

The customization features are:

1. This unit only support 24V-type battery. The 12/24V auto detection feature is disabled.
2. Power on time 3 Sec max
3. This LVD unit does not support selection switch, and the disconnect setting is

Disconnect voltage/low cut-off (V)	Disconnect/low cut-off delay (Sec.)	Reconnect voltage(V)	Reconnect delay (Sec.)
22.6	10	24.5	6

For other operation information, please refer to GP-1005 standard User's Manual and datasheet.
